

Santiago C. Navato II

Computer Engineering Graduate

National Road, Poblacion Bugallon, Pangasinan, 2416 | kominava1@gmail.com | 09457538610 | www.linkedin.com/in/santiago-navato-527a57353

PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience in software development, system troubleshooting, technical documentation, and technology-driven process improvement. Experienced in developing machine learning-based applications, designing system workflows, performing software testing, and analyzing technical issues through academic projects and internship experience at the Department of Information and Communications Technology (DICT) Region 1.

Foundation in programming, databases, networking concepts, and IT support operations, with the ability to quickly learn new technologies and adapt to evolving technical environments. Proven leadership experience through student organization roles involving project coordination, stakeholder communication, and team management. Passionate about delivering reliable technology solutions that improve business processes and user experiences.

EDUCATION

PHINMA University of Pangasinan | Dagupan City, Pangasinan | Bachelor of Science in Computer Engineering, Major in Embedded Systems | June, 2026

- **Cumulative GPA:** TBA
- **Honors:** Diploma - Bachelor's Degree, Pinning Awardee (2025) and Hardhat Awardee (2024) – Success Ladder, PEN VALUE Awardee: Commitment – The Golden Flame 2025, Leadership Awardee – Pulse Awards 2024, Certificate of Recognition – Leadership Camp 2023 & 2024, Certificate and Medal of Recognition (SSC CEA Representative) - Sinayon: The Golden Flame 2026.
- **Thesis/Capstone Project:** "parkhAIve: A YOLOv8n-Based Smart Parking Management System for PHINMA University of Pangasinan" – Develop an innovative smart parking management system that employs image processing and machine learning to enable slot recognition and real-time monitoring of slot availability within the campus to improve mobility and reduce congestion.

Pangasinan National High School | Lingayen, Pangasinan | Senior High School - STEM Strand | April, 2022

- **General Average:** 93
- **Honors:** With High Honors (Grade 11 and 12) Senior High School Diploma.

St. Andrew Catholic School | Bugallon, Pangasinan | Junior High School | March, 2020

- **General Average:** 93
- **Honors:** With Honors (Grade 8-10), Boy Scout of the Year, Service Awardee, Athlete of the Year

INTERNSHIP EXPERIENCE

Department of Information and Communications Technology - REGION 1 Office | San Fernando, La Union Intern | May 2025 - June 2025

- Supported IT operations and digital infrastructure initiatives under the ILCDB division by assisting with system monitoring, technical documentation, and workflow improvements.
- Assisted the Free WiFi for All program in monitoring internet connectivity status and updating network-related information across Region 1 areas.
- Participated in on-site technical assessments with the GovNet team to troubleshoot connectivity concerns and assist in identifying possible network issues.
- Prepared technical documentation and administrative reports to support project monitoring, implementation, and decision-making processes.
- Assisted in organizing and facilitating technology-related seminars by providing technical support, coordinating participants, and ensuring smooth execution of activities.
- Developed adaptability in working with government IT processes, technical teams, and different stakeholders in a professional environment.

SKILLS & INTERESTS

- **Software Development:** Object-Oriented Programming in C++, Java, and Python; application development fundamentals; software debugging and troubleshooting; software testing and test documentation; system workflow design and process improvement; and database design fundamentals.
- **IT Operations & Support:** Basic network configuration and troubleshooting; IT system monitoring and documentation; hardware and software troubleshooting; technical support and incident resolution fundamentals; and Microsoft Office Suite and Google Workspace.
- **Data & Analytics:** Data organization and analysis; information management; research and technical documentation; machine learning fundamentals; and image processing applications.
- **Tools & Technologies:** YOLOv8, OpenCV, Arduino, Cisco networking fundamentals, Canva, and CapCut.
- **Professional Attributes:** Quick to learn new technologies, tools, and workflows; adaptable to changing environments; and able to work effectively in team-based settings.

LEADERSHIP & ACTIVITIES

PHINMA University of Pangasinan Supreme Student Council CEA Representative (April 2025 - Present)
| Editor (August 2022 - April 2025)

- Managed organizational projects requiring coordination, documentation, communication, and collaboration with university stakeholders.
- Led technical committees for major university events, ensuring proper planning, resource management, and successful execution.
- Created and managed digital communication materials while maintaining consistent information delivery across platforms.
- Handled organizational documentation, financial records, and administrative processes requiring accuracy and accountability.

Institute of Computer Engineers of the Philippines Student Edition - Region 1 Chapter Vice President for External Affairs | August 2025 - Present

- Coordinated with industry professionals and student organizations to develop technology-related activities and career development programs.
- Managed communication initiatives and collaborated with teams across different institutions.
- Strengthened leadership, problem-solving, and stakeholder management skills through regional-level organizational activities.

Institute of Computer Engineers of the Philippines Student Edition - PHINMA UPang Chapter Vice

President for External Affairs | April 2024 - April 2025

- Spearheaded the ICpEP.se university chapter by planning a diverse range of academic and social events like webinars, festivals, and peer tutorials, promoting a balanced and fun environment for Computer Engineering students.
- Spearheaded the Computer Engineering Festival, CpE-Lakasan.

Computer Club - St. Andrew Catholic School President | 2019 - 2020

- Spearheaded club operations and presided over technical activities to foster digital literacy and technological interest among the student body.

PROJECTS

parkhAIve: A YOLOv8n-Based Smart Parking Management System for PHINMA University of Pangasinan PHINMA University of Pangasinan | 2026 Machine Learning/Image Processing Lead Developer

- Led the development of an AI-powered parking management system designed to monitor vehicle occupancy and provide real-time parking availability information.
- Developed and integrated computer vision components using YOLOv8n and OpenCV for vehicle detection and parking slot monitoring.
- Assisted in designing system workflows, testing application functionality, debugging technical issues, and improving system reliability.
- Conducted validation and performance testing to identify detection errors, optimize system behavior, and enhance overall user experience.
- Collaborated with team members to integrate machine learning models, backend processes, and web-based system components into a functional prototype.

Arduino Uno Based Environmental Thermometer | PHINMA University of Pangasinan Developer | 2025

- Collaborated with a team of 5 to design an Arduino Uno Based Environmental Thermometer, a hardware-software solution utilizing C++ for logic implementation and precision soldering for circuit assembly, achieving a 100% success rate.

Arduino Training Kit Project | PHINMA University of Pangasinan Lead Developer | 2025

- Engineered a modular hardware training kit featuring integrated basic I/O components (LEDs, buttons, and buzzers, motors, etc) to facilitate hands-on learning of embedded systems.

Smart Traffic Lights System (Arduino Uno) | PHINMA University of Pangasinan Developer | 2025

- Collaborated in creating an automated traffic management prototype diagram using an Arduino Uno to simulate intelligent signal timing and improve vehicular flow through programmed logic.

Line Follower Robot (Basic ICs) | PHINMA University of Pangasinan Developer | 2024

- Developed an autonomous robot with a team using logic gates and infrared sensors, demonstrating proficiency in analog circuit design and sensor-based navigation without a microcontroller.

Lam-Ang Game Development | PHINMA University of Pangasinan Developer | 2024

- Created a 2d pixelated digital game with a team of 5, inspired by Philippine folklore and utilizing

Pygame to implement character mechanics, movements and cultural storytelling.

RSO Information Dissemination Portal | PHINMA University of Pangasinan Developer | 2024

- Assisted in developing a centralized database and web portal to streamline information sharing and member management for Registered Student Organizations as part of a project.

Power Supply Unit (PSU) | PHINMA University of Pangasinan Developer | 2024

- Collaborated in constructing a functional DC power supply unit with group members, involving transformer integration, rectification, and voltage regulation to power low-voltage electronic prototypes.

PROFESSIONAL DEVELOPMENT

- **Certifications:** Career Service Examination – Pen and Paper Test (CSE-PPT) Professional Passer, March 2026.
- **Seminars:** IoT Conference: Resilience for All, Future-Proofing our Communities (2025), Smart City and the Future of Jobs: Singapore Perspective (2025), Application Security: OWASP Top 10 - 2021 (2025), AI and Cybersecurity (2025), ICpEP Region 1 Regional Convention (2025), Data Privacy for All: Protecting Your Data, Safeguarding Your Future (2024).
- **Webinars:** DICT Region 1 Data Privacy Awareness (2025), Cybersecurity 101 (2025), LEAD IT: Leadership and Empowerment through Ambassadorship in Digital Innovation for IT Webinar -CHED Region 1 (2024).
- **Leadership:** Special Forum on Good Governance and Youth Engagement with Senator Bam Aquino (2025), Siyak ya Mismo Forum: The Importance of Local Leadership in Nation Building (2023), Leadership Camp (2023, 2024 & 2026), 16th SPC Leadership Congress Seminar (2020).
